THE FIRST DISPLAY of the MAIN POST

- Hemming Sivertsen and Guru Olsdatter are deemed Generation 1 because data is verifiable at archives to this level.
- Some data preceding theirs is posted in the PDF attached to blogpost "Those Fiplingkrogen Tales of Mali Hemmingsdatter"
- Hemming Sivertsen was named Sjursen Hemmingsen in error in "Early Hemmingsen Ancestry; Circles of Norway"

1 Sivert Hemmingsen died in Stjordal in 1841. He and Mali C. had 4 children: Hemming 1826, Anders 1829, Gurina 1832, Sigrid 1836. • Mali re-wed, re-widowed and shipped to Minnesota in 1866 with children and grands. See item 2 next.

2 • Mali Hemmingsdtr wed Johan Andreas Svensen in Stjordal and moved south to Strinda Parish where Svend was born in 1837. Johanna Elizabeth too in 1840, but later records wrongly report her of Stjordal and/or Vefsn. Svend must have died: Svend b. 1845 arrived with the family back in Stjordal; he passed that same year. Then her family and Paul's followed Ole's to Nordland. Gurine was born in Vefsn in 1847. They were at Fiplingkrogen Vefsn in 1865. Mali was the first child of Hemming and Guro to leave Stjordal; the only to locate to America. Mystery solved: her husband died on route, told as follows:

• "Those Fiplingkrogen Tales of Mali Hemmingsdatter" - on separate emigrations of Mali H and Mali C to MN. Its attachment SivertAndMali.PDF details Mali C's 1st and 2nd families, looks at the process of leaving the old for new world and postulates the generation behind Hemming Sivertsen and Guru Olsdatter in Nord-Trondelag. The PDF is intense with source data.

In 1885, Maren re-wed to tailor Edvard Zachariassen, likely former partner to Elin Oline Olsd b 1845 (son Edvin Marius 1865-03-05 Hattfjelldal) No children were found from this union. A rough patch followed Ole's death resulting in some foster care, apparent in 1891. Pauline wed Johan Marcilius Nilsen of Sjaavig in 1905 at Vefsn. Last seen: 1907 at Herringbotne at birth of Olav Mathias. Anna Olsdtr b 1866 Uglevand > Mathias Arntsberg Jorgensen of Sjaavig in 1889. At Lamoen in 1910 with surname Sjaavig. ● Elen Oline's story is posted as "Our Dahlby Family: First Others in Cumberland WI". Pauline followed; so will her story, later.

WHERE THEY LIVED IN TOWN

Hatfjelldal had three Census Districts in 1865. Paul H was in CD 001 Hatfjelddalen; RR 0023 Ugelvatne/Hemming Paulsen was next to him at RR 0024 Grorli/Matis Bentson, at CD 001; RR 0002 Hatfjelddalen/ Ole Hemmingsen in CD 002 Susendalen; RR 0007 Nelderlie/Alette Ingebrigtsdtr (future step-g-grandmother) in CD 003 Rytsvandet; RR 0013 Tustervatne. There were separate school districts within each census district. Redistricting happened as the town grew, such that subsequent censuses would see updated naming stucture. Over time, surnames became associated with the RR 0000

THE THIRD DISPLAY of the MAIN POST

Trondelag was our dominant heritage. Hemmingson and Hemmingsen names went forward in the US and Canada respectively. At Gen. 3, Trondelag-Trondelag met Nordland-Oppland; Bentson-Jonsdtr. This slide shows them and Gen 4, our great-grandparents, Ole Mathias Hemmingsen and Beret Has Mathisdtr with their siblings. We can visualize the evolving family diaspora. Ole left for WI in 1882, Beret 1886, Granddad 1887. Granddad's Gen. 5 will follow for best flow. Finally Gens 1 and 2 of Oppland and Nordland will be presented. Note: Bentson was a short form of Bendigtsen.

- a) Bentson /Bendigtsen had various spellings, also Vaagaa/Vaage/Vågå Oppland.
- b) Matis Bentson died in 1884, Marit Jonsdatter in 1894. They twice blended Nordland-Oppland genes with Trondelag.
- c) Pauline Hemmingsdtr and Lars Rued left for WI USA early 1880s. Brother Ole and wife Beret followed as neighbors.
- d) ● Matias Martinus M and Anna Oline H went to Iowa in 1888. The story is blogged. Sverre M travelled with them.
- e) ● Hans Matias and Benjamin M A Matisson have a story: Uncle's **PHOTO** but for a decade? <https://wp.me/p9ORWJ-3aL>

Third Display Left Side: Family of Mathis Bentson/Bendigtsen [Nordlander] and Marit Jonsdatter [Opplander]

1 All children had moved or passed on when Mother died in 1894, except for Johan Olaus Matisson (1850-1908). He had had Marit Jacobia (1878-79) with Lovise Vilhelmina Andersdtr uegte. He married Petrine Marie Olsdtr in 1882. Son Torger, born 1884 wed Lina Marie Larsdtr in 1908; they still had **Hattfelldalen Farm in family hands at 1920**. Daughter Marit Johansdtr, b. 1883, wed Trithjof Norman Thomassen, in Otofons P in 1903. Rangdi b 1886, wed Johan Eibert Nilsen, in 1908.

2 Torger Christian Mathissen died in 1882. No reason was entered.

3 Maren Jorgine Mathisdtr (1856-1918/geni.com) wed Ole Mikal Nilsen b 1854 in 1879. She went to Tarnia Sweden in 1887 with Elen 1880, Torger 1882, Marie 1884, Nikoline 1886. Also Einar 1879-80. Geni.com has a small **PHOTO** of her

4 Marie Lovise Mathisdtr died April 1884 of pneumonia, just weeks after her father succumbed to bronchitis. She wed Benedict Mathias Sivertsen in 1880 Mosjoen: Signe Mathilde same year, last seen 1891 with grandparents and father.

Third Display Right Side: Family of Hemming Paulsen and Gurine Olsdatter

5 Mathias Hemmingsen 1859-1883 died of "chest disease".

6 ! Elen Hemmingsdtr 1855-1880, at Groli. Her Inger Mathilde Gustavsdtr b 1874 died of measles at just 8 months. Elen never wed her partner. She joins sister Anne Marie and cousin Inger Oline in a story on the hardships of young women when a large male population suddenly migrates in and out. [Circa granddad's birth, it also presents the history of Groli.](#)

7 Anne Marie Hemmingsdtr (1857-1949) wed Laurits Johnsen in 1884 at Grorli. At Elsvand: Ragnvald Mathias 1885, Gunda Jorgine 1887, Elen Mathilde 1890. At Aasen: Johan Ingemann 1893, Paul 1895, George Edvin 1897, Ingaborg Anna 1900, Hjalmar 1903. Hemming Gustavsen (1877-1966) was Anne Marie's son by Gustav Henriksen. See item 6 above for more ! Lauritsdtrs Gunda Jorgine b 1887 and Elen Mathilde b 1890 died of diphtheria which had hit our farms in 1895.

- Hemming Gustavsen immigrated to Alaska in 1905. His story is blogged as "A Life Larger Than Lean"

8 Ingeborg Anna Marie Hemmingsdtr (1861-91) wed Olaus Olsen in 1880 and resided with her parents at Grorli. He left her widowed with Sigurd Edvin 1880, Marie 1881 and Olav 1882. She wed Olaus Nilsen in 1885. Their Hemming b. 1887 died within days and Elen Nikolina b. 1889, in 1891, a month before her mother, who died of TB. Marie wed Ingebrigt Olaus Larsen; the family at Perjorden Vefsen in 1910. Olav went to Sara Hemmingsdtr at Ungelvand, but died in 1908. Sigurd Edvin remained at Groli and weathered a tough time. He was a father at 14, to a woman five years his senior. That he was yet unconfirmed, seemed a concern. He became an unwed father again in 1898, and again to an older woman. That child, Susanne, did not survive. **Update:** Olaus Nilsen's younger brother, Magnus and wife Albertine assumed Groli, and cared Hemming and Gurine. Their descendants own the farm today.

- Sigurd Edvin Olaussen immigrated to US per his son's confirmation record, and may merit a story for resilience.

9 Sara Hemmingsdtr (1867-1940) wed Ivar Ivarsen b 1858, **at Ugelvand 1920** with Sverre Julius b 1899, Anna 1909 Arne 1910. Haldor Gunerius 1899-?. The chart below covers both wives and all children of Ole. Beret was ill and died soon after George was born. Ole then wed Alette Emilie Bergith Ingebrigtsdatter of Tustervand.

This chart is not displayed in the main post

Einar was born on Hatfjelddalen in 1882 as Ole embarked for WI. Beret probably spent the next four years there, seeing her mother through early widowhood. She left with the three youngest in 1886. This was probably the last home in Norway for Henriette and Mathias in their year of waiting to join their family in Wisconsin.

The blog has photos of Ole, Henriette, Einar/Ed, George. As well, Alette Ingebrigtsdtr and her children.

! **The Farm:** This seems a good place to show what the children were used to. In 1865, Matis Bentson had 2 horses 10 cows, 9 sheep, 3 geese and 14 reindeer. His mother had reindeer too; 6. He planted barley and potatoes. Matis was a tenant farmer on this land with one building at Census District 001 Hatfjelddalen-Rural Residence 0002 Hatfjelddalen.

No reason is known for our Opplander-ancestor trek to Nordland between 1829 and 1836. They beat the Trondelagers!

- Marit Hansdtr d 1836 at 48 in Susendahl. Jon Torgersen re-wed in 1839, that record revealing his ancestry. In Vaga Oppland: marriage in 1808; Torger 1810, Marit 1815, Marit 1820, Hans 1823, John 1825 and Hans 1829.
- Marit Jonsdatter died at Hattfjelldal in 1894. The burial record Jan 1895 cited Vaage I Gudbrandsdalen, 1819, for birth. Re: Marit birth 1815, 1820. No death record for first. Mother surname is wrong for second.
- ● Marit Jonsdtr's brother Torger b 1810, a Generation Three emigrant, was key to blogpiece "Uncle's **PHOTO**".
- 1801 census for Vågå Ulevolden: Torger Hansen and Kari Jonsdatter at 54 and 49, no children present.
- 1801 census for Vågå, Hougen: Hans Arnesen ≈1749, Mari Olsdtr ≈1762 with 4 children, including Marith
- Spouses for Generation 3 were not necessarily from Oppland, with Matis Bentson being a local Nordlander.

FAMILY SOURCES and INSPIRATION

Father wrote the Family History of John Oliver Hemmingsen and Mary Margaret Dickson in 1999. Grandfather, Matt Hemmingsen (born Mathias Berg Olsen) wrote memoirs ca 1954. Both were unpublished. The author has been using these assets in genealogy for a decade. Audiotapes of Matt's cousin, Gina Plocker (born Rued) made in 1959 recently became available, although damaged. The author publishes stories after verifying details at official archival sources.

NOTES and SOURCES

GENERAL

Church Books and Norway Censuses were accessed at Digitalarkivet.no

Birth and Death dates are provided wherever possible. NOTE: Norwegian Church Books usually catalogue Birth under Baptismal Date and Death under Burial Date. Thus, output of search can be confusing, with the event of interest being posted to a later CB than expected.

Migrant data was usually first found in Norwegian CB under utflyttar and innflyttar. More complete information is found in various Emigrant Protocols at DA but seemed more easily entered through FamilySearch.org.

The displays themselves, contain references within them.
